👤 PROFESSIONAL SUMMARY

Computer Science Engineering graduate (2026) skilled in Python, Web Development, and AI technologies. Hands-on experience in developing software and machine learning projects, with strong problem-solving abilities.

🎓 EDUCATION

TKR College of Engineering & Technology
Bachelor of Technology (CSE)

2022 – 2026

Alphores junior College
Intermediate (MPC)

2020 – 2022

Trinity High School
SSC

2020

🧩 INTERSHIPS

Web Development Intern | LaunchPad Interns

07/2025 – 08/2025

- Developed a Personal Finance Tracker using HTML, CSS, and JavaScript.
- Designed responsive web pages and improved user experience.
- Applied front-end development concepts to build interactive applications.

Python Programming Intern | CodSoft

07/2025 – 08/2025

- Developed Python applications including a To-Do List, Calculator, and Rock-Paper-Scissors Game.
- Applied object-oriented programming and problem-solving techniques.
- Enhanced coding, debugging, and software development skills.

🧠 TECHNICAL SKILLS

- Programming Languages: Python, JavaScript
- Web Technologies: HTML, CSS, React.js
- Database: SQL
- Version Control: Git, GitHub
- Problem Solving
- AI/ML: TensorFlow, Keras, OpenCV, CNN

📄 CERTIFICATES

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Artificial Intelligence – IBM SkillsBuild
- Python 101 for Data Science
- Data Analytics Job Simulation – Deloitte
- Java Programming Fundamentals – Infosys Springboard

📁 PROJECTS

Identifying AI-Generated Images Using Deep Learning Technologies: Python, TensorFlow, Keras, CNN, OpenCV

- Developed an AI-based image classification system to distinguish AI-generated images from authentic images.
- Designed and trained Convolutional Neural Network (CNN) models for image analysis.
- Performed image preprocessing, feature extraction, and model evaluation.
- Improved classification accuracy using deep learning techniques.
